Subject: Re: West Ridge Lease Expansion task 3368
Place: OGMCOAL

Hi John-

Thanks for the information. I understand that you designed it to be incorporated into an EA, however, the Division must incorporate it into the mine plan by itself. If it is not too much of a problem, DOGM requires that we incorporate the report with a cover sheet with the information cited in the following regulation.

R645-301-131. All technical data submitted in the permit application will be accompanied by the names of persons or organizations that collected and analyzed the data, dates of the collection and analysis of the data, and descriptions of the methodology used to collect and analyze the data.

Mine plans often incorporate reports from over thirty years. It is very important to keep all of this information in the permit so that we can reference the researchers if needed. Thanks so much for your understanding. If you could email me a cover sheet, I would very much appreciate it. Let me know if you have questions.

Ingrid,

Attached is the cultural report for the lease expansion. There is no cover sheet because it is a file search designed to be incorporated in an EA, if needed. If you need anything else please let me know.

John
